PROFESSIONAL SUMMARY

Motivated and versatile BCA student currently pursuing my degree, with a completed Diploma in Software Engineering and hands-on experience across the full web development stack. Comfortable building modern, responsive front-end interfaces with React.js, JavaScript, Tailwind CSS, and Bootstrap, as well as structuring backend logic and databases with Python, Django, MySQL, and MongoDB. Also bring practical data skills in Microsoft Excel and Power BI, including pivot tables, dashboards, and data visualization. Passionate about writing clean, component-based code and continuously learning new technologies, with a focus on building well-rounded, production-ready web applications. Eager to contribute as a Full Stack Developer, Frontend Developer, or Data Analyst in an entry-level role.

SKILLS

Technical Skills

- **Frontend** : HTML5, CSS3, JavaScript (ES6+), React.js, JSX, Tailwind CSS, Bootstrap, jQuery, Responsive Web Design
- **Backend** : Python, Django, Django ORM, Flutter
- **Databases** : MySQL, MongoDB
- **BI & Reporting** : Microsoft Excel (Pivot Tables, VLOOKUP, Formulas, Charts), Power BI (Dashboards, DAX, Data Modeling)
- **Tools** : Vite, Git, GitHub, VS Code, LeetCode

Soft Skills

- Communication Skills
- Teamwork and Collaboration
- Time Management
- Quick Learner
- Creativity
- Work Ethic
- Interpersonal Skills
- Organizational Skills

PROJECTS

Pulse — React.js, Vite, Tailwind CSS

- Built a modern, responsive music streaming UI using component-based architecture and reusable React components.
- Implemented an interactive audio player with React Hooks (useState, useEffect) for smooth, real-time playback controls.
- Applied clean state management patterns to handle dynamic UI updates such as play/pause and track progress.
- Designed a custom, mobile-friendly interface with a strong focus on usability and visual polish.

Vyn Pay — React.js, Django, PostgreSQL, Tailwind CSS

- Developed a full-stack, Google Pay–inspired payment application with a React frontend and a Django + PostgreSQL backend.
- Built a 14-page responsive frontend with reusable components, Context API for state management, and Framer Motion animations.
- Structured Django apps and models to support JWT authentication, REST APIs, and secure data handling.
- Used code-splitting (React.lazy) and Recharts for improved performance and clear financial data visualization.

EDUCATION

Pursuing (2025-present)

IGNOU University

Bachelor Of Computer Applications

2025 September - 2026 March

Sinet | Malappuram, India

Diploma In Software Engineering

2023 - 2025

Mariyumma Memorial Higher Secondary School, Prabhapuram, Koppam

Higher Secondary Education

2022 - 2023

Mariyumma Memorial Higher Secondary School, Prabhapuram, Koppam

High School Diploma (DHSE Kerala)
